Pretoria, 0001

Recommendation of Regional Secretary-Organiser: _____

CRITERIA FOR AWARDING BURSARIES

1. The applicant is a student who has completed matric or a student at a Technikon/University/College (acceptable to the Fund's criteria) and has submitted proof of the last year's final academic achievements.
2. The student, whether at school, University, Technikon or College, does not have less than a 55% average final exam pass.
3. Each point on the application form has been fully completed.

Unless these requirements are met with, the committee will not consider an application

RULES OF THE SATU BURSARY PLAN

1. The length of Union membership does not form part of the criteria in granting a bursary to an applicant.
2. If a child has been granted a bursary for a Technikon, University or College, it is not necessarily automatic that the child will be given a bursary for the second year's studies or, if applicable, 3rd year studies.
3. Even if a child has been a previous SATU bursary recipient, a new application must be submitted for each year.
4. Race does not form any part of the decision regarding whether bursaries are granted or not, and the SATU will not tolerate accusations of racism.
5. The closing date for bursary applications will be 31 January of each year, and no exceptions will be made for late applications. Photostated or faxed applications will not be accepted.
6. Both successful and unsuccessful applicants will be notified in writing within the first two weeks of February, or after the Bursary Committee has made its decision. The SATU will not tolerate pressurisation or abusive telephone calls.
7. Payments are not made to the applicant, they are made directly to the Technikon, University or College.
8. Bursary applications are fed into a program which was supplied to the Union by the Technikon of Pretoria and University of Pretoria. The program also takes the following criteria into consideration;
 - a) financial need
 - b) academic merit
 - c) leadership qualities.
9. Students will be immediately disqualified if;
 - applications are submitted before proof of final academic achievements are supplied,
 - the application has not been completed in full.
10. Bursaries will not be granted to students wishing to study at Technical Colleges

I further certify that my application is in full compliance with the SATU Bursary criteria and that I have read and understand the SATU Bursary rules.
